

## **Plasan Sasa Wins Contract to Supply Israel Defense Forces With New Personal Protection Solution**

( August 16, 2006 ) - Plasan Sasa, a world leader in the design, development and manufacture of combat-proven ballistic armor solutions, announced that it has been awarded the second significant contract this year to supply the Israel Defence Forces (IDF) with an advanced personal protection solution for safeguarding soldiers. This important win positions Plasan Sasa as the major supplier of personal protection products to Israel's Ministry of Defence.

According to the contract, Plasan Sasa will supply the IDF with thousands of units in a project valued at around US\$ 1.8 million dollars. Delivery is scheduled for the last quarter of 2006 and the first quarter of 2007.

Due to the strategic importance of the Israeli market for Plasan Sasa, the company invests significant development resources in this market. The innovative and high quality solution that will be supplied to the IDF is the result of completely new development by Plasan, based on the latest materials and cutting-edge of light composite armor technology.

"We are very pleased to have been selected once again for such an important project - evidence of the IDF's continued confidence in the quality and reliability of our solutions and technology - which will protect soldiers' lives during their critical missions and enable a higher survival rate in the army", said Plasan Sasa's CEO, Mr. Dan Ziv.
