

Plasan Wins Best Provider of Vehicle Survivability Protection Solutions

- The panel of judges: "Plasan's smart systems, the fact that they could be applied to a broad range of vehicles, and the reliability of their products, place Plasan at the forefront of the leading ballistic protection solutions companies in the world."

- A Prestigious International Award for First Place Winner in Protected Vehicle Survivability Solutions was Awarded, the Second Year in a Row, to Plasan of Israel.

(February 4, 2008) -- Plasan, a world leader in the development, integration and production of ballistic protection and crew survival, was awarded first place for excellence in ballistic protection technologies for vehicles, as part of the annual international conference in LMAV (Light & Medium Armoured Vehicles) in London. This is the second consecutive year that Plasan has won this prestigious award.

The panel of judges, which presented the award to Plasan's CEO, Dani Ziv, remarked that the company has received this award once again because of its world-class technological innovation, its high level of reliability, and the range of solutions it offers.

Plasan's CEO, Dani Ziv, said when receiving the award: "We are convinced that our advanced survivability solutions save lives and provide the best defense for fighting forces as they carry out their tasks on the battlefield. We are very proud to receive this award," he said and added, "...and we see it as proof of the trust which our customers, worldwide, place in us with respect to the quality and reliability of our solutions, and to the advanced technology on which they are based."
